

WIND ENERGY MODULAR TRAINER

DL WIND-A

Didactic system for the theoretical and practical study of wind power facilities. The device includes a set of control modules, measures and applications, a wind turbine, a device to measure wind speed and descriptive and practical manuals.

MODULES

- o Measurement module
- o DC/AC conversion module
- o Battery control module
- o 12 V lamps module
- o mains lamps module
- o 24 Ah, 12 V battery

WIND GENERATOR

- o 160 W, 12 V wind generator.

WIND SENSOR

- o Anemometer and wind direction sensor mounted on a stand

It also includes:

- o Frame
- o Set of interconnecting wires
- o Descriptive and practical manual
- o Wind turbine instruction manual

The trainer includes a software for data acquisition and processing.
